Vello is the name of the new washable wall finish, it spreads like Alabastine with the finish of paint. We have it in a full assortment of colors.

Doug and Butler are taking a rink each to Vulcan for the Little Bow Bonspiel. Lets hope they do themselves proud.

See our new 1940 wallpaper book for many new suggestions and ideas for spring cleanup.

Oma and Loretta Clever again from a 2 month trip to California. They all had a grand holiday and Fred was as the beer barrel about.

Our new Addison 5 tube radio complete with new batteries and tubes at a real price of \$28.50 complete.

Our heartfelt sympathy goes out to the Baker family in their sad bereavement.

Dasco products are tops when you want to cut things. Our stock of butcher knives, paring knives, side cutters, chisels and punches is complete.

Confucius says: He who accepts blind date usually gets pruned.

The new Dominion Linoleum and Congoleum rug patterns are here for your inspiration.

We have some wonderful buys in used tractors, drills, cultivators, rod weeders, and disc harrows. See us for your requirements.

Matlock and Mix Re-elected

Ratepayers in Divisions 4 and 5 showed their confidence in their present councillors when they returned both C. Mix and H. Matlock by decisive votes.

In division 4 Councillor H. Matlock defeated G. Rhodes on a count of 53 to 21.

Results in the division 5 were: C. Mix—33 and N. Carlson—22

The returns from these elections are further endorsement of the Municipal policies than those given at the Annual meetings. Fortunate indeed are these two divisions in having such able and expert representatives. In their previous terms both men have done fine work in their divisions and are held in high respect by their fellow Councillors.

Village Council Meets

The Village Council held its first meeting since the elections last Monday night. Doug Henderson was reappointed Mayor of the Town and H. Gill as Deputy Mayor. Attending for his first meeting was I. Ditto occupying the vacancy created by the resignation of F. Clever. The meeting was very brief and their was little business beyond the reading of the report of the election.

V 8s Feted by G M Campbell

Members of Champion's Junior Hockey Club were guests of Mr G M Campbell at the picture show last Tuesday night.

Occupying a row reserved for them, the boys certainly enjoyed their treat. A hearty round of applause was given the club and their Coach Harry Smith by the audience.

Last Rites For World of Wheat Mrs. A Baker

By H G L Strange

It was with deep regret that the people of Champion and district learned last week of the death of Mrs. A. Baker. Mrs. Baker had been ill for some time but her death came as a shock to many friends.

Funeral services were held at 2 p. m. in the United Church on Friday 23 Rev. P. Dawson gave the service.

Caroline Dell Eastman was born in 1883 at Continental Ohio. For twenty years she was a member of the teaching profession. Mrs. Baker came to Champion in 1929 and she has resided here for eleven years. Death came at 8 o'clock on the evening of the 21st.

Mrs. Baker leaves to mourn her husband Alvie Baker and her step-daughter Anna Caroline as well as four sisters, Effie, Essie, Daisy and Helene and two brothers Russel and Lowell. Burial took place in Mrs. Baker's home town of Continental Ohio.

Mrs. Baker was always active in church and her passing is mourned by her friends.

Clevers Return 7000 Mile Trip

Mr. and Mrs. Fred Clever and Loretta returned home Tuesday after a two month trip on which they travelled 7000 miles.

Leaving Champion they crossed through the Crows Nest Pass and into Spokane. Between Spokane and Seattle they visited Coulee Dam which is now under construction. From Seattle they jogged north to Vancouver. Turning south again they followed the Pacific sea board through Tacoma and Portland to San Francisco. South again they entered Los Angeles and crossed into Mexico.

During their stay in Los Angeles they experienced both a flood and several minor tremors.

They visited their parents Mr. and Mrs. M. G. Clever who are residing at Monterey Beach Los Angeles. Mr. Clever is expected home the last of March.

Among the friends they visited while on the trip were the Wrights, the Maynards, the Dells and Mrs. V. McLure and daughter all well known in Champion district.

During every war that has been fought in the past some inflation of money has taken place. This inflation has resulted in higher prices. In the past wars the price of raw materials and of wholesale commodities have risen faster than retail prices.

Apparently the same thing is happening in this war. For the price of wheat since September 1st has risen by 30 percent whereas during the same period the prices of the things farmers have to buy have only risen on the average by 3 percent. If these advances keep up in any thing like the same proportion, the purchasing power of a bushel of wheat and of other farm products will be back to that which they enjoyed in 1939 14 and our farmers then would be moderately well-off.

At the present moment however, the purchasing power of a bushel of wheat is still only 72 percent of what it was in 1913 14, so that a further advance of the prices received for the products farmers sell, in comparison with the prices of the things they have to buy for living and production, will be welcome and still would only be fair and equitable.

Following factors have tended to raise price:—Canadian wheat and flour exports from August 1st to date exceed exports from any other country; Extreme cold in Europe is hindering shipping; Argentine wheat crop reduced to 118 million bushels; Foodstuffs are in Korea, Manchukuo, and in Northern China; Winter wheat prospects are unfavorable in southern Spain.

Following factors have tended to lower price:—Argentine corn crop receives very beneficial rains; Reports from North Africa indicate acreage to wheat has been increased; Record wheat crop of 31,304,000 bushels in Sweden; Number of lambs available for export from New Zealand will far exceed that of any other season.

Mercury Falls

Side Roads Impassable

Snow again fell over the prairie provinces as March prepared to come in like a Lion. Weather which, excepting brief cold spells, has been excellent has taken a decided turn for the worse. For the first time during the winter roads have become blocked. The main highways however are still open at the time of writing.

Skating at the rink has been discontinued but the curling rink is still in use. Local skiers are out for the first time this year and report an excellent time.

Electors to Decide

Electors of Little Bow are indeed fortunate in the calibre of the men who go before them for selection as representative in the Alberta Legislature, we refer to Hon. Peter Dawson and E. H. Griffin.

We have always held that too much importance can not be placed upon the selection of nominees. While policies should be analyzed to see if they really meet our need this should not be the sole method of determining the mark on your ballot. Due regard should be given to the calibre of the men up for election.

We would not presume to discuss the qualifications of the candidates except to point out how fortunate Little Bow Electors are in their nominees. Hon. Mr. Dawson, by reason of his high calling in life has carried the dual position of church leader and Legislative representative with more than ordinary grace.

It is said that a "prophet" is not without honor except in his own land but this can hardly be said to be true in the case of Mr. Griffin. Despite differing political views and other factors we have heard nothing but the finest tributes to the personal integrity of Mr. Griffin and his sincere desire to serve his fellow men. Thus with the personalities of the two men well known it behoves the electors to give careful thought to the issues, not following blindly what anyone tells but thinking through individually and making your decision known on the ballot paper, according to the best of your judgement.

Bob Burns, champion of all radio liars, is often invited to join liars' clubs around the country, but last week he was informed one club in the East had blackballed him. The secretary of the club wrote: "I have been instructed to inform you that we discussed making you an honorary member of our Liars Club, but we voted it down after one man made a speech. He said you were a one-man liars club yourself, and therefore we ruled that you were a club instead of a man. If you'll think over what you said on the Kraft Program last week, you'll agree with us."

Fred MacMurray, co-starring with Carole Lombard in the Lux Radio Theatre play, Made for Each Other, kept his script in his hip-pocket between rehearsals, refusing to let the script girls keep it for him. He had a very good reason. On Thursday night before the show, MacMurray dreamed he went to the Radio Theatre microphone without his script, and delayed the show until it could be replaced. I'm not superstitious, he said, but.....

Plant CANADIAN CERTIFIED SEED

MAKE plans early this year to harvest a bumper crop of smooth, clean, high-quality potatoes. Good seed is the first requirement for an excellent crop... because only good seed will grow vigorous plants, plants that can withstand most of the serious diseases common to potatoes.

Canadian Certified Seed Potatoes are good seed potatoes. By planting them, many of the losses due to disease will be avoided... higher-quality, cleaner, smoother, more uniform potatoes than those grown from ordinary seed stock will be produced.

So, this season, harvest finer potatoes—and more of them, Plant Canadian Certified Seed. Grow potatoes that will grade Canada No. 1.

Canadian Certified Seed Potatoes are available in all standard varieties. Be sure to select the variety most suitable for your locality! Ask the local District Government Inspector, Plant Protection Division, for full information and list of nearest distributors.

Food supplies are important in wartime —
This year, plant and raise only the best.

European Outlook Serious

Another cold wave swept over the continent of Europe last week increasing the suffering of the inhabitants and creating grave apprehensions concerning the wheat crop. Roumania wherein it is stated the thermometer registered 22 degrees below zero. Other continental nations suffered proportionately, but the British Isles are believed to have escaped the extreme severity and low temperatures which prevailed on the continental mass.

In high dry Alberta people are used to low temperatures and long since have learned to take precautions against them. But that is not the case Europe. Furthermore, in Europe the great bulk of the crop is winter wheat and authorities agree that low temperatures are dangerous to that crop. In Alberta spring wheat is the main crop about eight million acres being planted yearly and only a few thousand to winter wheat.

Severe damage to winter wheat in Europe will mean tragedy to millions of people. That continent consumes about two billion bushels of wheat a year and usually imports around 400 million bushels.

Letter to the Editor

Following is an extract of a letter written by Owen Williams in reply to a resolution adopted at the annual meeting of the ratepayers of the Champion Consolidated School and printed in the Champion Chronicle.

Lethbridge Alberta
Feb 25 1940

Editor of Champion Chronicle,
Champion

Dear Sir:

I conducted an inspection of the public school on April 15 and June 12 and submitted reports of these inspections to the board. In addition at my request the board met to discuss with me two problems which seemed to me to be rather serious. Had these reports been read the

people interested in the welfare of your school would have received this information.

At that time I informed the trustees that I would make a special effort in the fall to inspect the teacher appointed to take charge of the new room.

On account of heavy inspection duties in other parts of the inspectorate, one inspection a year is all that can be allowed a graded school.

I went out of my way to give this service to the Champion Board and I think that it is only fair that you publish this explanation.

Yours Truly

Owen Williams

Inspector of Schools

Training Pilots

Pilots trained under the British Commonwealth Air Training Plan will be given intensive instruction extending over a period of twenty-eight weeks. A small proportion of these pilots will be absorbed in the R. C. A. F. but the majority will proceed overseas. Courses for air observers will last for twenty-six weeks, while air gunners will be ready for action after a twenty-four week period of training.

All pupils are enlisted in the Royal Canadian Air Force as Aircraftmen, Class 11. All will undergo the same course of instruction for a period of four weeks in an initial training school. From then on, pilots, air observers and air gunners will go to their respective schools for additional instruction.
